Feng Shui Tours Of Chinatown

During this two-hour walking tour, Jodi Brunner, qualified practitioner in the ancient art of placement, puts a new perspective on the ch'i (energy) of Chinatown. While walking a circuit around Little Bourke Street, Brunner explains energy flow and shows how local restaurateurs and tradespeople use feng shui symbols to invite prosperity.

Through interviews with feng shui masters and Chinatown traders, Brunner has compiled a vast storehouse of knowledge about how the techniques of the ancient art are used by local tradespeople. Find out which pillars are painted with pig's blood and why, what happened to a local business when a feng shui master's suggestions were not implemented and why a below-ground space in this popular precinct was up for rent for more than five years.

Tours leave from Chinatown Square off Little Bourke Street, between Exhibition and Russell Streets, on Sundays at 10am. Bookings are essential, group bookings welcome. Please phone Jodi Brunner on 9662 1011 for further information on dates.
